255. ERYC Planning Application

- a. To Comment: 25/01404/PLF - Change of use and conversion of existing agricultural shed to dog kennels and erection of enclosed yard area
Location: Arnold Grange Arnold Lane West Arnold East Riding Of Yorkshire HU11 5HP

Cllr A Taylor, did not participate in the decision-making process of the planning application.

Comment: The Parish Council has reviewed the proposed changes to the previously approved dog kennel application and wishes to express its support for the revised plans. The Council recognises that the original application had already been granted approval, and the proposed adjustments appear to be more suitable and practical in their current form.

However, the Council would like to request that further consideration be given to enhanced soundproofing measures. The hounds can be quite loud at times, and their barking has been noted to carry across the village, potentially impacting residents.

The Parish Council respectfully asks that the applicant explore options to increase acoustic insulation or implement other effective noise mitigation strategies to help minimise disruption to the surrounding community.
